

**AMENDMENT TO THE SPECIFICATION**

Please replace the paragraph beginning at page 8, lines 1 to 10, with the following rewritten paragraph:

-- The transparent body 13 is provided with a plurality of flexible locking flakes 131 at the front end, a fish eye hole 132 at the center of the front edge, a housing with an interior circular compartment 133 made of transparent materials for receiving a note 30 indicated with the user's name, and a bevel locking rim 134 at the rear end. The indicating note 30 can be visible from outside of the housing which is made of transparent materials, while the media compartment can be substituted by a hollow portion for the purposes distinction. Besides, the invention may have alternative embodiments, for example, having the housing provided with a hollow out frame (not shown) such that the indicating note can be visible from outside. --
